

# To the Administrator Addressed

To help LEAs ensure they are prepared to respond within the required ten business days, **TEA** encourages LEAs to begin reviewing and compiling any documentation planned to be submitted to **TEA** when the Exceptions/Adjustments Workbook becomes available.

## **Allowable Federal Statutory Exceptions**

The following federal statutory exceptions and/or adjustments to fiscal effort considerations are allowable:

- The voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel
- A decrease in the enrollment of children with disabilities
- The termination of the obligation of the agency, consistent with IDEA-B, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by TEA, because the child has left the jurisdiction of the LEA; has reached the age at which the obligation of the LEA to provide FAPE to the child has terminated; or no longer needs the program of special education
  - An exceptionally costly program to a particular child with a disability is a program with a cost greater than \$10,163
- The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities
- The assumption of cost by the high cost fund operated by TEA under Title 34 of the Code of Federal Regulations (CFR) §300.704(c)
- The adjustment to fiscal effort provision under 34 CFR §300.205

For more detailed information on allowable exceptions and considerations, please refer to the IDEA-B LEA MOE Guidance Handbook, posted on the <u>IDEA-B LEA MOE</u> page of the TEA website.

### **Revised IDEA-B LEA MOE Calculation Tool Now Available**

Also on the <u>IDEA-B LEA MOE</u> page of the TEA website, TEA has posted the updated IDEA-B LEA MOE Calculation Tools and <u>Data Sources document</u> for the 2019–2020 cycle. LEAs should use this revised/updated calculation tool to perform their own internal calculations to compare with TEA's preliminary reviews and to ensure that results match.
