	SUBJECT:	Middle School Advanced Math Programs Update	
	CATEGORY:	Curriculum and Instruction	
	NEXT STEPS:	Share with middle school campus administrators and counselors	
			1

Beginning no later than the 2024-2025 school year, each school district and open-enrollment charter school must develop an advanced mathematics program for middle school students that is designed to enable those students to enroll in Algebra I in eighth grade [Texas Education Code §28.029].

Administrative rules for the Middle School Advanced Mathematics Program will become effective July 8, 2024. Once effective, the rules will be available in 19 Texas Administrative Code, Chapter 74, <u>Ourriculum Requirements</u>, Subchapter DD, ______, §74.2101, <u>Middle School Advanced Mathematics Program</u>.

Under the program, a school district or open-enrollment charter school must automatically enroll in an advanced mathematics course each Grade 6 student whose performance was either in the 60th percentile or higher on the
