The Texas Education Agency (TEA) is excited to announce the application process for Texas school districts to join the System of Great Schools (SGS) Network in Spring 2022. The application is available [here](#).

SGS Theory of Action and Network Overview:

The SGS Strategy is a district-level problem solving approach that seeks to dramatically improve student access to great schools by understanding school performance and community demands and using that information to deliver the high-quality, best fit schools families want.

Districts that join the SGS Network are ready to engage in bold and transformational change aligned to the following Strategy:

Set the right goal of providing all students access to a high-quality school that best fits their educational goals and individual needs.

Conduct an annual portfolio planning process that analyzes school performance, community needs, and parent and family feedback to inform action plans for all schools.

Take bold action driven by the annual planning process, including at least one school action per year.

Empower families by communicating each child's options, enrolling them in their desired program, and helping them overcome logistical barriers to attendance.

Create organizational structures to drive new policies and practices that accelerate the success, efficiency, and sustainability of the SGS Strategy.

SGS Network districts choose to participate in a 4-

Network Benefits:

The SGS Network is a dynamic professional learning community of like-minded district leaders throughout the state. Districts selected to join the SGS Network are provided:

- *Strategic Advising:* Each SGS district is matched with a TEA-vetted Executive Advisor (EA) firm that has deep expertise to support districts in implementing the SGS Strategy.
- *Professional Learning Opportunities:* The TEA requires district participation in regular workshops and professional development opportunities for superintendents, chief innovation officers, and other cabinet members.
- *Tools and Resources:* The TEA provides districts with templates, exemplars, and reference materials developed by leading districts and national experts to help you operationalize the processes above and design and launch school actions.
