

DATE:	September 19 , 2024
SUBJECT:	Texas Student Data System (TSDS) Upgrade Project
CATEGORY:	TSDS PEIMS and Core State Reporting
NEXT STEPS:	1) Share with superintendents and TSDS staff 2) Ensure LEA Data Publishing

Impacts to Data Reporting

The TSDS upgrade project will impact the reporting of PEIMS data for the 2024-2025 school year. LEAs will need to ensure that their data is published in the TSDS system by the deadline of December 12, 2024. This includes ensuring that all required data elements are present and accurate in the system.

LEAs should begin reviewing their data for accuracy and completeness starting now. This includes reviewing the data for all students, including those who are new to the district or who have moved during the year.

The deadline for data submission is December 12, 2024. LEAs should ensure that their data is submitted to the TSDS system by this date to avoid any potential issues with the reporting process.

For more information on the TSDS upgrade project and the impact to data reporting, please contact the TSDS support team at tsds@tea.texas.gov or call 1-800-455-4555.

Next Steps for LEAs to Begin Promoting Data for the PEIMS Fall Submission
